

selenium : Our Quality Policy

M E D I C A L

S

•**SUPPORT BY EXPERTS:** as professionals originating from the field of medical device manufacture, with more than 20 years of cumulative experience, the founders of SELENIUM now wish to dedicate their know-how to the service of their clients by providing high technology processes as subcontractors.

E

•**ECOUTE / LISTENING:** to always satisfy our clients' needs. The effort to follow the market, and its economic and regulatory evolution, should be the key to our success.

R

•**REVENUE AND PROFIT:** on our investments, in order to ensure the company's permanence and growth for our employees and shareholders. SELENIUM therefore makes the strategic choice to only work with partners willing to pay a fair price for the work performed.

V

•**VALUE:** of the people that work day after day to satisfy our clients and to help our company grow. SELENIUM must acknowledge the proper value of each person's work participating in the collective growth of our clients, suppliers, and employees.

I

•**INNOVATION:** for our clients and at their service. We provide innovative solutions in our fields, in order to continuously improve SELENIUM expertise.

CE

•**CERTIFICATION:** as intervening subcontractor in the process of marketing our clients' devices, we are aware of the purpose of the products entrusted to us and we are fully conscious that our services could have a prejudicial impact on the end user, if not conducted according to our fully validated procedures. We are committed to meet the requirements and maintaining the effectiveness of the quality management system.
